RE: Deckseal- Green Building Product Information (LEED® Information)

Tremco, as an organization, is committed to quality, responsive to both internal and external customers, our employees, our community and environment, and we will treat all with respect and good stewardship.

Tremco Inc. certifies the following information for Deckseal

Regional Materials:

Deckseal is manufactured in Spearfish, South Dakota.

Bentonite is used to produce approximately 89% (by weight) of this product. 100% of the bentonite used in the manufacture of the product is mined in Belle Fourche, South Dakota. As over 50% of the product is extracted regionally, this product could help to contribute to earning Materials & Resources Credit.

Recycled Content Information:

Recycled content for Deckseal is not available, and for the purposes of LEED reporting should be assumed to be zero.

VOC Content Information:

Deckseal has a VOC content of 0g/l equaling 0% by weight as applied/mixed.

Additional Information:

Should you have any questions or require additional information, please do not hesitate to contact Technical Services or your local Tremco Field Representative.

Sincerely,

A handwritten signature in blue ink, appearing to read "Amy Woodard".
