

GardMat[®] N

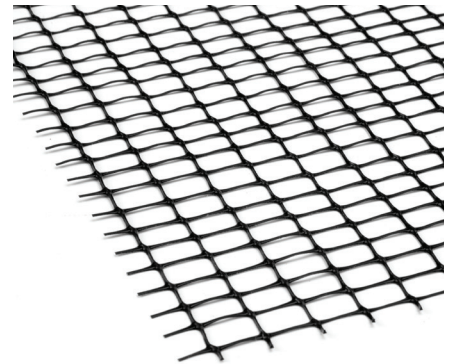

A SIKA COMPANY

GENERAL DESCRIPTION

GardMat N is a long-term, high strength polypropylene netting.

BASIC USE

GardMat N is designed to provide heavy duty wind and water surface erosion protection and long-term vegetation reinforcement when installed over Hydrotech's LiteTop[®] Growing Media as part of Hydrotech's Garden Roof[®] Assembly. GardMat N is typically used with plant plugs or pots where superior wind and water erosion is required long term. Hydrotech's Disk Anchors are used to fasten the GardMat N to the growing media surface.

INSTALLATION

- Refer to Hydrotech's Garden Roof Installation Guidelines for specific installation instructions.
- Refer to Hydrotech's Guide Details for additional information on technical requirements.
