

CertainTeed Ceilings Technical Services Memo

Subject:	Maintenance Instructions for CertainTeed Suspension Systems acoustic ceiling panels		
Date:	September 12, 2019	Tel:	800-233-8990

Handling

Before commencing with any grid cleaning activity, first remove the ceiling panels in order to prevent their contact with the cleaning solution. Clean cotton gloves should be worn at all times. When panels are removed they should be stored on a flat surface. Panels should be laid face to face in order to limit unnecessary soiling and damage during their temporary displacement.

Cleaning

Perform the cleaning as required with a soft cloth and a mild household cleaning solution (similar in performance to Fantastik® Oxy Power®).
