

PRESIDENTIAL[®] SERIES

Luxury Roofing Shingles

NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.

Leadership Starts at the Top

When you're an innovator, people take notice. And when the first-of-its-kind becomes a top choice in the industry, the industry follows.

The Presidential Series is the original luxury shingle series created to replicate the appearance of hand-split cedar shakes in the form of premium roofing asphalt.

Presidential Shake® TL
Presidential Shake®

EXECUTIVE STYLE IN A TRUE ORIGINAL

The shade, texture and rustic sculpted edges of each Presidential Series shingle combines to create a sophisticated design that stands far above the rest.

THE LOOK OF WOOD, MINUS THE WORRY

Presidential Series shingles are less costly than cedar shakes, but the benefits don't end there. Unlike wood, these shingles will not rot, and offer the industry's highest fire resistance rating. Plus, with CertainTeed's **StreakFighter®** technology, your roof is protected from the unsightly streaking caused by airborne algae (where available).

PEACE OF MIND

CertainTeed's lifetime limited asphalt shingle warranty is an industry-best, covering ANY manufacturing defect, including aesthetic defects.

The WOW Effect

PRESIDENTIAL SHAKE® TL

Luxurious performance that defines an industry. It doesn't come along often, but when you see it, you know it.

- With three layers of material, Presidential Shake TL is the industry's thickest, toughest and heaviest shingle
- Sculpted tabs provide the unique, rustic beauty of hand-split cedar shake roofing
- A wealth of colors capable of achieving any design vision
- All Solaris colors are rated by the Cool Roof Rating Council (CRRC) for cool roofs and can be used to comply with the 2019 California Title 24 Part 6 Cool Roof Requirements
- All Solaris colors can be used to comply with Los Angeles County, California Title 31 cool roof requirements for steep-sloped residential construction.

Add a Little Accent to Your Roof

CertainTeed offers Mountain Ridge, a UL Class 4 impact resistant accessory product used for capping hips and ridges. It is the perfect finishing touch for your roof, offering blended color and high-profile design. For the best performance, CertainTeed Presidential Starter is required to be used with these shingles.

Color Companion Products for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.

Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

It all starts with CertainTeed's broad line of shingles, featuring brilliant color blends, dramatic styles and shadow lines, and the strongest warranties in the industry. The right shingle can mean the difference between an average, everyday look or a beautiful roof that's the talk of the neighborhood.

Shingles are just the beginning - to keep your new roof performing and looking great for years to come it takes a complete CertainTeed Integrity Roof System approach.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles

Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
