

Corporate Headquarters
1125 Byers Road
Miamisburg, OH 45342

To whom it may concern:

The following product may qualify for LEED credits:

Product Name: D51A DBR® Female Splice Bars

Manufactured Location(s):

- Tremont, PA
- Modesto, CA

LEED Credits:

- MR Credit 3.1 - Resource Reuse (Specify 5%)
- MR Credit 3.2 - Resource Reuse (Specify 10%)
- MR Credit 4 - Recycled Content (10% or 20% post-consumer + ½ pre-consumer)
This product contains the following percentage of recycled content:

97.7%

- MR Credit 5.1 & MR Credit 5.2 are based on the distance between the Manufacturing facility and the job site. These credits are by default a possibility for every product, but the manufacturing location(s) will help in determining if the credit applies on a job-by-job basis.

For additional information or specific questions (including manufacturing locations) on LEED credits
