<b>Low Slope Fire</b>	Retardant (LSFR) RubberGard	MTE
Item Description	Item Number	
One Roll	Various	

## **Description**

LSFR RubberGard EPDM is a non-reinforced, cured, single-ply roofing membrane that can be used in ballasted, fully adhered and mechanically attached systems.

## **Product Preparation**

- 1. Substrates must be clean, dry, smooth, and free of sharp edges, fins, loose or foreign materials, oil, grease, and other materials that may damage the membrane.
- 2. All roughened surfaces that can damage the membrane shall be repaired as specified to offer a smooth substrate.
- 3. All surface voids greater than 1/4" (6 mm) wide shall be properly filled with an acceptable fill material.

Product Packaging							
Membrane Thickness	Widths		Length	Weight			
0.045" (1.14 mm)	7.5' (2.3 m) 10' (3.05 m) 16.7' (5.09 m) 20' (6.10 m)	30' (9.14 m) 40' (12.19 m) 50' (15.24 m)	100' (30.5 m)	0.29 lb/ft² (1.4 kg/m²)			
0.060" (1.52 mm)	7.5' (2.3 m) 10' (3.05 m) 16.7' (5.09 m) 20' (6.10 m)	30' (9.14 m) 40' (12.19 m) 50' (15.24 m)	100' (30.5 m)	0.39 lb/ft² (1.5 kg/m²)			

### Method of Application

RubberGard Non-Reinforced LSFR EPDM Membrane must be installed in accordance with current RubberGard specifications, details, and workmanship requirements.

### **Storage**

- Store away from sources of punctures and physical damage.
- Assure that structural decking will support the loads incurred by material when stored on rooftop. The
  deck load limitations should be specified by the project designer.
- Store away from ignition sources as membrane will burn when exposed to open flame.

#### **Precautions**

- Take care when moving, transporting, handling, etc. to avoid sources of punctures and physical damage.
- Isolate waste products, such as petroleum products, greases, oils (mineral and vegetable) and animal fats from the RubberGard membrane.
- Refer to Safety Data Sheets (SDS) for safety information.
