

USES: Fortifiber Building Product Systems® Red Rosin Paper is commonly used as a temporary and disposable general purpose work-over paper to protect surfaces from foot traffic, wall and ceiling texture overspray and paint drippings.

An economical, multi-purpose building paper, Red Rosin Paper can be used in a variety of common residential and commercial construction applications as a separation sheet between other building products. It is often used as a “slip-sheet” in flooring systems, installed between the sub-floor and finished wood flooring, to keep out dust and to help prevent squeaks. As specified, it may be used in built-up or metal roofing systems to prevent asphalt or coal tar from dripping into the building, or as a slip sheet.

DESCRIPTION: Fortifiber Red Rosin Paper is a single-ply sized kraft paper product. It contains post consumer recycled content and can be recycled again through a recycling center. Red rosin paper is sized to resist shrinkage. Fortifiber Red Rosin Paper is “Made in the USA”.

ROLL SIZE: 36" x 167' (500 sq.ft.)

PROPERTIES: Fortifiber Red Rosin Paper weighs approximately 17 lbs. (3.5 lbs./100 sq.ft.) per roll. Fortifiber Red Rosin Paper is recyclable and resistant to bleed-through.

INSTALLATION INSTRUCTIONS: In system applications, follow directions of specifier or system manufacturer. In general, clean surface of all debris to avoid puncture of the red rosin paper. Unroll and cut paper to desired length and, as needed, overlap paper a minimum of 4"-6". Tape seams as required for the specific application.

STORAGE: Store product in a dry, clean environment free from excessive heat or cold.

LIMITATIONS: Fortifiber Red Rosin Paper is not flame-retardant, a vapor retarder, a moisture barrier and is not waterproof. Avoid use in high moisture areas. Contact Fortifiber's Technical Assistance for information on available flame-retardant and moisture-resistant products. Red rosin paper does not qualify as hazardous material under OSHA's hazardous communications standards. An MSDS sheet is not required for this product.
