

Moisture Control: Flashing

Mighty-Flash™

Stainless Steel Fabric Flashing

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

Technical Data:

Puncture (PSI)	ASTM E154	2,500+
Tensile (PSF)	ASTM D412	100,000+
Fire Resistant	ASTM E84	Pass
Mold Resistant	ASTM D3273	Pass

Description & Benefits:

Mighty-Flash™ is a stainless steel fabric flashing, a Class A material consisting of a layer of polymeric fabric with a single sheet of 304 or 316 stainless steel, bonded to one side. This innovative product is flexible and easy to form on the jobsite, features excellent puncture and tear resistance, and is designed to last for the life of the wall.

- An optional stainless steel drip edge is recommended to ensure diversion of moisture to outside of building (product can be cut flush with exterior wall)
- Surface mount applications should be attached with a stainless steel or aluminum termination bar.
- Rolls are 60' long
- Stainless Steel thickness: .003 in
- Available in 12", 16", 18", 24" & 36" widths
- Fire resistant: ASTM E84 tested, a Class A material
- Mold resistant: ASTM D3273 tested
- Heat resistant: no degradation in high heat applications
- UV-resistant for up to 180 days.
- Recyclable with 60% Recycled Content
- Lifetime Warranty

Mighty-Flash™ flashing should be installed with white woven, printed material facing out.

MATERIAL CONFORMANCE: Stainless Steel Type 304 & 316: ASTM A240/A240M, ASTM A666, and ASTM A480/A480M

• Please refer to Hohmann & Barnard installation instructions for more information.

Select Flashing Stainless Steel Type:

- Type 304 Stainless Steel
- Type 316 Stainless Steel (Special Order - Marine Grade)

Width: (60 ft. rolls)

- 12" 16" 18" 24" 36"

Recommended Accessories:

(Submittals Available on h-b.com)

- DP - Stainless Steel Drip Plate
- Termination Bar (T1 or T2)
- HB Sealant
- X-SEAL Tape
- Stainless Steel Corners and End Dams

IMPORTANT: Since each construction project is unique, the appropriate selection and use of any product contained herein must be determined by competent architects, engineers and other appropriate professionals who are familiar with the specific requirements of the project in question.
