The Academy Series Features Aluminum Trim and Door, with 10 Door Styles & Anodized Option.

Door & Trim Construction: Clear anodized aluminum. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch. All models have 1-3/4" wide trim on frame and 1-1/4 trim on doors with glazing. Rolled edge models are constructed of mechanically-joined extrusions, except for models 1827 and 1027 which are die formed. *Die formed corners provide an attractive, rounded edge - unique to the JL line of cabinets!*

Trim Style & Depth: *Recessed* 3/8" flat trim, *Semi Recessed* - 1-1/4", 1-1/2" Square Edge or 2-1/2", 3", 4" (w/flush pull) and 4-1/2" models with Rolled Edge. See separate submittal for Trimless cabinets.

Tub: The tub is constructed of cold rolled steel with white powder-coat finish standard. Tub forms a flange to cover cut edges of wallboard material. Fire-resistant material is attached to the exterior of the tub.

> Fire Rating: Fire-FX2™ cabinets are UL listed and labeled as an approved membrane penetration firestop system for up to 2 hours in accordance with UL 1479 (ASTM-E814) and CAN/ULC-S115, when properly installed in a wall assembly according to installation instructions.
