

GoBoard® Point Drain

For use in GoBoard Shower Pan system or mud pans using GoBoard Membrane

GoBoard® Point Drain is fully assembled with an integrated membrane and is specifically designed to work with the GoBoard Shower Pan system. The low profile design minimizes curb height as well as enables zero entry (curbless) installations.

USES

For use in shower pan areas as a component of the GoBoard Shower Pan system, and is compatible with GoBoard Designer Series risers and grates.

FEATURES

- Complies to IAPMO PS 106, Tileable Shower Receptors and Shower Kits, and ASME A112.18.2/CSA B125.2.
- GoBoard® Point Drain Kit includes a universal drain body and friction fit universal drain cover riser, and is designed for use with the GoBoard Shower System.
- Low profile design
- Adjustable riser height
- Integrated waterproofing membrane

TECHNICAL DATA

Drain Assembly	Component Spec
Drain Cover	4.28" x 4.28"
Drain Riser	4.28" x 4.28"
Clamping Collar	6.5" x 6.5"
Membrane	11" x 11"
PVC Drain Body	2" PVC S40
Standards Compliant	
National Plumbing Code of Canada	ICC ES EG 159
UPC	ANSI A118.10-2014
IBC	ASME A112.18.2 / CSA B125.2-2015
IRC	IAPMO PS 106-2015e1
IPC	2018, 2015, 2012, 2009

APPROVED MATERIALS

Substrate - Level wood subfloor, or level concrete slab

Bonding - Polymer modified thin-set mortar compliant with ANSI A118.4 and dry-set mortar compliant with ANSI A118.1.

Joint Sealing - GoBoard® Pro Sealant, GoBoard® Sealant, or approved alternative.

Tools Needed - Utility knife, pencil or pen, straight edge, speed square, level, measuring tape, 90° putty knife, 1/4-in x 1/4-in square-notch, 3/16-in x 5/32-in v-notch trowel, margin trowel, caulk gun, corded or cordless drill, thin-set mixing paddle and bucket.

SAFETY

Please wear gloves, safety glasses, long sleeve shirts, and long pants when installing GoBoard products. Temporary mechanical abrasion (itching) of skin, eyes and respiratory track may occur upon exposures to fibers or dust during handling of GoBoard.
