

Let's Get Started on a Great Finish

Designed for use in finishing gypsum board joints, spotting fasteners and finishing cornerbead.

ProForm® Lite Blue Joint Compound is a lightweight, vinyl base ready mix joint compound. Approximately 30% lighter than a conventional ready mix, Lite Blue Joint Compound pulls and sands easier and reduces shrinkage by up to 33%.

Lite Blue Joint Compound is designed for use in finishing gypsum board joints, spotting fasteners, and finishing corner bead.

It has achieved GREENGUARD Certification for low chemical emissions into indoor air during product usage.

ADVANTAGES

- Approximately 30% lighter than standard weight ready mix.
- Reduces shrinkage up to 33%.
- Provides a finish with less pocking and pin holing.
- Excellent sanding characteristics.
- Easy to use right from container.
- Mold resistant.
- Low VOC content - less than 2 grams/liter.

SPECIFICATIONS

Pails	4.5 gal (17 L)
Cartons	3.5 gal (13.2 L) 4.5 gal (17 L) Midwest only
Approximate Coverage	9 gal per 1,000 sq ft
