DURABILITY FOR THE FUTURE

Where strength, selection, and sustainability meet.

With our state-of-the-art technology, Nichiha products give you the wood look without the maintenance drawbacks. Whether you need boards, panels, or the look of individual shakes, our fiber cement products are resistant to pests, rotting, and tough weather conditions.

RESISTANT TO:
ROTTING | WARPING | PESTS | DELAMINATION

Naturally above and beyond

Nichiha fiber cement products are manufactured with our health and planet in mind. Our products are comprised primarily of fly ash which diverts waste from landfills and puts it to practical use. When you choose Nichiha cladding, you can feel good about using a product with low environmental impact.

We have a long history of conserving resources and employing manufacturing best practices:

90%

of all materials used in our process are sourced within 200 miles of our facility*

95%

of the water used to make our products is recaptured, processed and used again*

100%

of our pre-cured fiber cement scrap is reused

Explore the NichiProducts Collection: A full range of classic siding styles and textures, along with soffit and trim, to create remarkably beautiful, low-maintenance, and lasting exteriors.

THE TIMELESS APPEAL OF LAP SIDING

NichiBoard™ offers the look of traditional lap siding with the performance of fiber cement. Available in either smooth or cedar textures, NichiBoard is factory-primed to create the perfect canvas for you. NichiBoard is easy to work with and to finish. Its premium neutral gray primer is thick and smooth, making paint application easy.

TAKE YOUR DESIGN TO THE NEXT LEVEL

Only Nichiha offers a commercial-grade architectural wall panel system for use in residential applications as the predominant cladding for modern home design or as an accent to more traditional siding styles. With unique finishes and textures, the versatile panels can be installed in both interior and exterior applications and employ a simple clip installation system using hidden fasteners to preserve the clean lines of your modern design. They also feature our patented rainscreen technology—a sophisticated system that works to keep your home ventilated and free from moisture buildup.
