

Looking for more revenue?
You'll find it in the attic.

ATTICAT[®]
EXPANDING
BLOWN-IN
INSULATION
SYSTEM

Increased profits. More

Find cash in the attic! Diversify your business, differentiate yourself in the marketplace, and grow your profits when you offer attic re-insulation services to your customers.

Since you're already in customers' homes for your roofing business, it makes sense for you to provide top-of-house insulation assessments along with your roof analysis.

Enormous business opportunity.

- There are 126 million homes in the U.S.—60 million of them are under-insulated
- A home that needs a new roof is also most likely to be under-insulated
- Energy costs continue to rise, which is creating high demand for energy-saving solutions like insulation

Convincing selling points.

- Insulation and ventilation are key components of maintaining the proper conditions in the attic and on the roof deck
- Up to 40% of a home's conditioned air escapes through the attic
- Adding insulation to the attic is the easiest and most cost-effective way to improve energy efficiency, plus it helps reduce greenhouse gas emissions

Where homes leak indoor air

value for customers. Things are looking up.

Your customers want energy savings.

- 90% of home buyers would pay up to \$5,000 more for a home that would use less energy*
- Adding insulation and sealing leaks can help lower heating and cooling energy bills by up to 20%**
- 84% of homeowners believe energy-efficient homes have a higher resale value†
- 78% of homeowners would choose one home over another based on its energy efficiency††

High margin. Low investment.

The Owens Corning™ AttiCat® system combines a professional Owens Corning™ AttiCat® Expanding Blown-In Insulation Blowing Machine and AttiCat® Expanding Blown-In PINK® FIBERGLAS™ Insulation. This proven system is easy to transport and maneuver. Sales and operational training materials are provided.

AttiCat® Expanding Blown-In Insulation System
