

ROCKWOOL Plus™ MB

Pre-engineered Metal Building Insulation

ROCKWOOL Plus™ MB is a lightweight, stone wool batt insulation designed for pre-engineered metal building construction where an hourly fire rating is not required.

This product is noncombustible and fire resistant, and will not produce toxic smoke or promote flame spread.

ROCKWOOL Plus™ MB also helps to increase energy efficiency. Strong and durable onsite, it is easy to cut and install, and can contribute to earning LEED® points.

This product is recommended for installation on the interior side of a metal building, typically installed between the purlins and girts for new construction and retrofit applications.
