Sikaflex[®]-102 EverFlash Membrane

LIQUID FLASHING FOR DOOR AND WINDOW ROUGH OPENINGS

WHERE TO USE

- Floor moldings and door sills
- Wood or metal window and door frames
- Seal exterior perimeter of window nailing flanges
- CMU, poured in place or precast concrete
- Sheathing joints
- Gaskets at openings in walls or floors for ducts, piling, etc.
- Sealing perimeter rough openings of wall penetrations

FEATURES AND BENEFITS

- Excellent weathering and water resistance
- Good UV Stability
- Non-corrosive, Non-Staining, Non-Shrinking
- Can be used for multiple situations (static cracks less than 3/4", 90° details, sealing fasteners, buck embedment & flashing)

- High durability
- Excellent unprimed adhesion on all cement-based materials, brick, ceramics, glass, metals, wood, epoxy, polyester and acrylic resin
- Can be used with direct applied stucco applications
- Single source system warranty available when used in conjunction with Sikaflex, SikaHyflex or Sikasil weatherseal or perimeter sealants, Sikagard Air Barrier Systems, or Sika BMI Stucco Systems
- Can be painted over with water, oil, and rubber-based paints. (Preliminary tests recommended)
- Fast Cure system (can apply perimeter sealant in as quickly as 2 hours)
- Allows for same day installation of windows and doors

*Always refer to Current Product data Sheet and SDS for detailed performance specifications prior to use.
