This standard color guide is an overview of the Universal Color Pak color offering. Colors show approximate tone without any texture. Color of actual product may vary slightly from this color guide. For best results, the final color approval must be done after sealant is mixed with the Universal Color Pak. Sika is not responsible for color differences between this color guide and the final color appearance after installation. Custom colors available. Please consult your local Sika Representative for further information on how to process a custom color request.

WE ARE SIKA

Sika is a specialty chemicals company with a leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing and protecting in the building sector and the motor vehicle industry. Sika's product lines feature concrete admixtures, mortars, sealants and adhesives, structural strengthening systems, industrial flooring as well as roofing and waterproofing systems.

Our most current General Sales Conditions shall apply. Please consult the Product Data Sheets prior to any use and processing.
