

DYMONIC® 100

High-Performance, High-Movement,
Single-Component Polyurethane Sealant

Product Overview

Dymonic® 100 is a medium-modulus, non-sag polyurethane sealant that creates a durable, flexible seal which performs excellently in moving joints. This highly versatile sealant will adhere to damp or green concrete without outgassing and once fully cured, will exhibit tenacious adhesion to most construction substrates.

Typical applications for Dymonic 100 include:

- Expansion and control joints
- Precast concrete panel joints
- Perimeter caulking (*windows, doors, and panels*)
- Fluid-applied flashing for fenestration/windows, door and curtain walls
- Water immersion applications

Features & Benefits

- Tenacious adhesion to most common construction substrates
- Can be applied to damp and green concrete to help keep projects on schedule
- Exceptional movement capability of +100/-50% for use in dynamic joints
- Compatible with all Tremco Vulkem® traffic coatings, ExoAir® air barrier products, TREMproof® cold-applied waterproofing membranes, and Nudura insulated concrete forms (ICF)
- Outstanding sag resistance when used in wider joints
- 20+ standard colors are paintable and non-yellowing, with excellent weathering characteristics
- UV-stable, low-VOC formula
