

GYPSUM ROCKS

Award-winning Allentown Homes' (Colorado Springs, CO) great room featuring DuRock™ self-leveling gypsum underlayment.

LEVELROCK & DUROCK.

Roll over concrete. LEVELROCK and DUROCK self-leveling gypsum underlayments are stronger than conventional concrete –130% stronger, in fact.* DUROCK™ QUIK-TOP™ self-leveling gypsum underlayment offers an approximate compressive strength (aggregated) of 7,000-10,000 psi vs. 3,000 psi approximate compressive strength (aggregated) for conventional concrete.

LEVELROCK® and DUROCK™ self-leveling gypsum underlayments offer a higher performance level at a lower installed cost and maintain a superior bond to floor-covering adhesives. Choose from our line of professional poured flooring that exceeds conventional concrete's strength or meets the requirements of ASTM F710 for preparing concrete floors to receive resilient flooring. We offer the following STRONGER THAN CONCRETE™ gypsum underlayments including:

- LEVELROCK® 2500
- LEVELROCK® 3500
- LEVELROCK® 4500 NXG®
- LEVELROCK® RH
- LEVELROCK® Commercial RH
- LEVELROCK® CSD® EARLY EXPOSURE™
- LEVELROCK® ULTRAARMOR™
- DUROCK™ PROFLOW™
- DUROCK™ QUIK-TOP™
- DUROCK™ QUIK-TOP™ Gray

Rock solid. LEVELROCK. DUROCK.

ADHESIVES.

Stronger-than-concrete compressive strengths and level floors make LEVELROCK and DUROCK self-leveling gypsum underlayments perfectly suited to receive mastics and thin-sets for nearly every type of flooring product. These versatile underlayments can be poured from feather-edge to over 2 inches thick and up to 30,000 sq. ft. in one day, saving time and money.

Adhesives manufacturers benefit from LEVELROCK and DUROCK self-leveling gypsum underlayments':

- Superior bondability — tested by USG
- Lower pH than concrete
- Self-sealing properties — no need to seal LEVELROCK 4500 NXG or DUROCK QUIK-TOP & Gray
- Controlled surface porosity and density
- Self-leveling capabilities
- Network of trained LEVELROCK applicators

For more information on LEVELROCK and DUROCK self-leveling gypsum underlayments and your adhesive product, contact your LEVELROCK/ALCORP Network representative at 817 329.1808.

LEVELROCK® 3500 self-leveling gypsum underlayment receives marble flooring and carpet in a seamless transition at USG Corporate Headquarters (Chicago, IL).

FLOORING.

LEVELROCK and DUROCK self-leveling gypsum underlayments' smooth, level floors are the perfect partner to virtually every flooring product, including vinyl, glue-down carpet, hardwood and natural and man-made stone. High compressive strengths maintain the surface integrity, while the versatile nature of LEVELROCK and DUROCK self-leveling gypsum underlayments allow for a variety of uses including floor repair, reconditioning and rehabilitation.

Flooring manufacturers benefit from LEVELROCK and DUROCK self-leveling gypsum underlayments':

- Ability to be poured to the strictest flatness tolerances
- Durability — all LEVELROCK and DUROCK self-leveling gypsum underlayments are tested and backed by a USG warranty
- Approval by adhesive manufacturers — extended adhesive manufacturer warranties available
- Compatibility with virtually all crack isolation, many moisture mitigation and most sound attenuation** products, including the entire LEVELROCK sound portfolio

For more information on LEVELROCK and DUROCK self-leveling gypsum underlayments and your flooring product, contact your LEVELROCK/ALCORP Network representative at 817 329.1808.

Trademarks

The following trademarks used herein are owned by United States Gypsum Company or a related company: CSD, DUROCK, EARLY EXPOSURE, LEVELROCK, NXG, PROFLOW, QUIK-TOP, STRONGER THAN CONCRETE, ULTRAARMOR, USG, USG in stylized letters.

Notice

We shall not be liable for incidental or consequential damages, directly or indirectly sustained, nor for any loss caused by application of these goods not in accordance with current printed instruction or for other than the intended use. Our liability is expressly limited to replacement of defective goods. Any claim shall be deemed waived unless made in writing to us within thirty (30) days from date it was or reasonably should have been discovered.

Safety First!

Follow good safety/industrial hygiene practices during installation. Wear appropriate personal protective equipment. Read MSDS and literature before specification and installation.

Note *As compared to minimum specified compressive strength requirements according to the International Building Code (IBC) and ACI 318 Concrete Design Code (ACI 318-08 – Building Code Requirements for Structural Concrete).

**Do not use DUROCK QUIK-TOP, QUIK-TOP Gray or PROFLOW self-leveling gypsum underlayments over sound mats.
