Dow Froth-Pak 200 Foam Sealant Kit

Product #: W-FP200

Dow Froth-Pak 200 Foam Sealant Insulation is a two-component, quick-cure polyurethane spray foam system. Foam will skin over in 30-40 seconds and be completely cured in under 1 minute. Dow Spray Foam Sealant provides a barrier against air infiltration and helps seal out moisture, dust, pests, and smoke. Ideal for gaps less than 4in wide. Offers coverage of 200 bft / 16.66 cuft.

Froth-Pak 200 Kit Includes:

- ISO (A)
- Polyol (B) cylinder
- Six cone white spray nozzles (187918)
- Four GG white spray nozzles (187915)
- 9 ft gun hose assembly (GHA)
- Petroleum jelly packet
