DESCRIPTION

Touch n' Seal All Seasons moisture curing, low pressure expanding gun foam sealant is uniquely formulated to perform under difficult low temperature conditions where traditional polyurethane foam sealants fail to cure.

It meets the insulating and air sealing requirements of professional, commercial, industrial, agricultural and residential contractors who must work in extreme temperatures. Once cured, All Seasons Gun Foam is non-toxic, fire-retardant, non-shrinking and permanently fills and seals cracks and gaps up to 1-½ inch (38mm) wide, providing a permanent insulating and air sealing solution to most building component materials, including: wood, concrete, insulating foam boards, metal, plastics and sheetrock. Touch 'n Seal All Seasons protects against both vapor migration and energy robbing air infiltration, helps to improve indoor air quality and provides superior insulation performance.

Feature:

- Packaged in 24 oz. can
- Yield (¼" Bead) - 2,200 Linear Feet
- Suitable for Use at Temperatures as Low as 20°F
- Type V Residential Fire Block
- Low Curing Pressure - OK for Windows and Doors
- ICC-ES ESR-1926 Approved
- Class-A Fire Resistance
- Flame Spread - 10
- Smoke Developed - 15
- Density - 1.9 +/- .10pcf
- Max. Service Temp for Cured Foam - 250°F (121°C)
